IMPORT & EXPORT LEGAL COMPLIANCE

Import Export Code (IEC) Registration :

The IEC is a mandatory license for any business involved in importing or exporting goods and services. We assist with:

- Fresh registration on the DGFT portal
- Modifications or duplicate code requests
- Linking with PAN, GST, and bank details
- Resolution of IEC suspension or rejection issues

AD Code & DGFT Licensing :

To clear goods through Indian ports, you need an Authorized Dealer (AD) Code linked to your bank and customs location. We help with:

- AD Code application and ICEGATE activation
- Linking AD codes to multiple ports or branches
- Applying for or amending DGFT licenses (Advance, EPCG, MEIS, etc.)
- Handling blocked license issues or policy clarification letters

SEZ Unit Setup and Bonding :

Planning to operate within a Special Economic Zone(SEZ)? We provide complete support for:

- SEZ application drafting and submission
- Land allocation coordination with Development Commissioner
- Execution of legal bonds (continuity, indemnity, surety)
- Obtaining Unit Approval Letters (UAL) and Custom Bonding procedures

Customs Documentation & Clearance Support :

Incorrect or incomplete customs filings can lead to costly delays. We help with:

- Import/export documentation review (Invoice, Packing List, HSN, etc.)
- HS Code identification and duty structure mapping
- Coordination with customs brokers (CHA)
- Resolution of queries, assessments, and post-clearance audits

CUSTOMS & COMPLIANCE ADVISORY

At Newfangled Logistics, our Customs & Compliance Advisory service is engineered to help businesses master the complexities of global trade regulations with ease and confidence. Navigating customs requirements, tariff classifications, and international trade laws can be daunting, but our expert team leverages the latest technology and regulatory intelligence to keep your shipments compliant and moving seamlessly.

Whether expanding into new territories or managing multi-country operations, we deliver customized compliance solutions that minimize delays, reduce risks, and prevent costly penalties. From automating documentation to monitoring changing regulations and managing sanctions, we ensure your supply chain stays agile and uninterrupted in an ever-evolving trade environment.

Our Key Services Include :

- ➔ **Regulatory Compliance Assurance:** Ensure full compliance with international customs laws to avoid fines and delays.
- ➔ **Faster Customs Clearance:** Streamline documentation & processes to minimize clearance times and keep shipments moving.
- ➔ **Risk Mitigation:** Proactively identify and manage compliance risks, including sanctions and changing trade regulations.
- ➔ **Accurate Tariff Classification:** Avoid costly errors with expert guidance on product classification and duties.
- ➔ **Trade Agreement Optimization:** Maximize benefits from free trade agreements and preferential tariffs.
